The micro-organism useful for fermentation are

- a. Bacteria
- b. Yeast
- c. Fungi
- d. None of these

To differentiate lactose and non-lactose fermentors the medium used is

- a. Mac Conkey's medium
- b. Stuart's medium
- c. Sugar medium
- d. Citrate medium

The effect of antibiotics on micro organisms is mainly due to

- a. Inhibition of cell-wall synthesis
- b. Damage to the cytoplasmic membrane
- c. Inhibition of nucleic acid and protein synthesis
- d. All of the above

b,a,d

BCG vaccine is for the prevention of

- a. Brucellosis
- b. Diphtheria
- c. Botulism
- d. Tuberculosis

Penicillin is discovered by

- a. Fleming
- b. Pasteur
- c. Koch
- d. None of these

Drugs used against tuberculosis (TB) are

- a. Refampicin, Isoniazid
- b. Pyrazinamide, Streptomycin
- c. Both a and b
- d. None of these

d,a,c

خِيْرٌ مَا يَتَمَّنَاهُ الْمَرءُ لِنَفْسِهِ ..

أَنْ يَكُونَ سَبِيلًا يُجْرِي اللَّهُ أَقْدَارَهُ مِنْ خَلَالِهِ، فَيُصْبِحَ سَعْدًا لِخَلْقِهِ.

أَنْ يَرْتَبِطَ اسْمُهُ بِالْبَرَكَةِ وَأَنْ يَكُونَ حَضُورَهُ اسْتِبْشَارًا، وَفَلَالًا طَيِّبًاً.

إِنْ وَضَعَكَ اللَّهُ فِي مَكَانٍ تُسْتَطِعُ مِنْ خَلَالِهِ التَّيسِيرَ عَلَى النَّاسِ، فَيُسْرِرُ..

فَإِنَّكَ لَا تَدْرِي مَا تَفْعَلُ بِكَ دُعْوَةٌ صَادِقَةٌ مِنْ أَحَدِهِمْ ..

فَرِيمَا كَانَ بَيْنَهُمْ مِنْ لَوْ أَقْسَمُ عَلَى اللَّهِ لِأَبْرَهُ!
