

Course Syllabus

1	Course title	Scientific Medical Research
2	Course number	0505308
	Credit hours	2 credits (1.5 theory-0.5
3		practical)
	Contact hours (theory, practical)	1 contact hours/week
4	Prerequisites/corequisites	Quantitative research; Epidemiology
5	Program title	Doctor of Medicine MD
6	Program code	05
7	Awarding institution	The University of Jordan
8	School	Medicine
9	Department	Family and Community Medicine
10	Course level	Third year- Undergraduate
11	Year of study and semester (s)	3 rd year-2 nd semester
12	Other department (s) involved in teaching the course	NA
13	Main teaching language	English
14	Delivery method	□ Face to face learning □ Blended □ Fully online
15	Online platforms(s)	☐Moodle ☐Microsoft Teams ☐Skype ☐Zoom
10		□Others
16	Issuing/Revision Date	February 2024
17 Co	urse Coordinator:	
Nam	e: Dr. Rania Albsoul	
Offic	ce number: 147	
Phor	ne Number;	

Email: r.absoul@ju.edu.jo

Contact Hours: Asynchronous sessions

19 Course Description:

Qualitative social science research can form the basis of surprising and profound discoveries about individuals and societies. Ethnographies, interviews, and focus groups contribute insight and depth to our understanding of the human condition and shed light on processes that may not be identifiable using big data sets (quantitative research). This course is designed to introduce students to qualitative research methods. Through the course, students will be expected to conduct their qualitative study. Students work in groups to analyze the data and present the results of the analysis.

Intended Learning outcomes (ILOs):

Upon successful completion of this course, students will be able to:

- 1. Understand the key features of qualitative research.
- 2. Explore different philosophical underpinnings of qualitative research.
- 3. Identify various types of qualitative research.

- 4. Describe and recognize quality and trustworthiness in qualitative research including the definitions of credibility, transferability, dependability and confirmability and the strategies employed to achieve them.
- 5. Develop samples for qualitative studies.
- 6. Develop qualitative data collection methods.
- 7. Recognise ethical guidelines for qualitative research.
- 8. Understand data analysis methods in qualitative research.
- 9. Recognise the principles of writing a qualitative research proposal.
- 10. Understand and develop Mixed Methods Research (MMR) studies

20 Course aims and outcomes:

A- Aims:

The purpose of this course is to introduce medical students to the field of qualitative research and prepare them in the knowledge, skills, and techniques necessary to undertake independent research using this methodology.

B- Students Learning Outcomes (SLOs):

	1	I	I	
	SLO (1)	SLO (2)	SLO (3)	SLO (4)
SLOs				
SLOs of the course				
1.Demonstrate knowledge	1-14			
of scientific research				
methods and ethical				
principles of clinical research and be able to				
write research proposals or				
research papers.				
2				
3				
4				
5				
6				

21. Topic Outline and Schedule:

22 Evaluation Methods:

Opportunities to demonstrate achievement of the SLOs are provided through the following assessment methods and requirements:

Evaluation Activity	Mark	Topic(s)	SLOs	Period (Week)	Platform
Final Exam	40	Week1-Week 14			On-campus
Research Project	10	Qualitative research report			

23 Course Requirements

Students should have an account and access to the E-learning platform.

24 Course Policies:

A- Attendance policies: Asynchronous Sessions

- B- Absences from exams and submitting assignments on time: According to university regulations
- C- Health and safety procedures: According to university regulations
- D- Honesty policy regarding cheating, plagiarism, and misbehavior: All written work submitted for a grade in this course must be the product of your composition. Papers written by previous students in the class can be tracked, and the use of them by another student is considered cheating. All ideas and quotations that you borrow from any source must be acknowledged.
- E. Grading policy: According to university regulations
- F- Available university services that support achievement in the course: E-learning

25 References:

- A- Required book(s), assigned reading and audio-visuals:
- Creswell, J. W., & Poth, C. N. (2016). Qualitative inquiry and research design: Choosing among five approaches. Sage publications.
- PowerPoint presentations.
- B- Recommended books, materials, and media:

Various articles from published studies available at power point presentation for each lecture. These are intended to supplement the above texts by providing additional perspectives on the issues involved or particular variations and applications of topics.
